Got Security Concerns?

Peoples Savings Bank safely allows access to your accounts wherever your mobile device connects. The 128-bit encryption plus personal passwords and phone activation codes ensure the privacy and security of customer information. There is also device recognition and geographic indicators.

Tips to Protect Your Information

- ✓ Lock your screens. Implement a longer pin, password or pattern to unlock.
- ✓ Install anti-virus programs on your computers and mobile devices.
- ✓ Implement apps that can locate your phone if lost or stolen. Also consider installing apps that can remotely wipe out the contents of your phone if necessary.
- ✓ Install apps cautiously. Get your apps from reputable sources.
- ✓ Be cautious when using public Wi-Fi.
- ✓ Don't fall for text or e-mail spam. PSB will never send you an e-mail or text requesting account information.
- ✓ Do not store personal information such as user names, logins or passwords on your mobile devices.
